ERICA

Fractional Long & Short Pulsed Er:YAG (2940nm)

The ERICA laser provides powerful results for treatment of epidermal skin lesions, various scars, fine lines and wrinkles. The ERICA comes with two modes: the short pulsed mode for ablation and the long pulsed mode for remodeling.

Specifications

Laser Type	Er:YAG	
Wavelength	2940nm	
Pulse Duration	Short Pulse : 350us	Long Pulse : 1ms
Pulse Energy (Max)	Short Pulse : 1.5J	Long Pulse : 1J
Repetition Rate	Short Pulse : 3-10HZ	Long Pulse : 3-5HZ
Spot Size	Zoom Handpiece : Ø 1-7mm	
	Fractional Handpiece : 8x8 mm ²	
Display	10.4" TFT	
Electronical Control	Arm Processor	
Cooling System	Closed cycle water to air heat exchanger	
Electical Power	220V, 50/60Hz
