

HRZ-6000

Dramatic Hair Removal Magic Show

POWERFUL & PERFECT

Permanent Hair Removal

HRZ-6000

Dramatic Hair Removal Magic Show

Features . . .

It is easy to change water.
Diode module is safe by installing powerful motors which is cooling rapidly.
The cooling ability improves by using a compressor.

Why HRZ-6000?

HRZ-6000 : This is very effective Diode Laser for removing hair, which can remove all types of hair at any part of human body in short time.

This device radiates 808nm laser with sufficient energy to remove the targeted hair.

With this very effective laser and excellent skin cooling system, the patient can be treated painless and the operator can save much time.

• How it works?

- 808nm against hair follicle melanin;

Irradiation of 808nm Laser

Thermal Injury to Sebaceous Gland

After applying gel on to the skin, approach the hand piece in perpendicular direction.

Melanin in follicles gets thermal energy during the treatment.

Hair follicles are effectively terminated.

Main Features

• Easy and Fast Treatment

- Large spot size 11x10mm (optional 11x15mm) can treat wide surface at once and fast repetition up to 15Hz is also helpful.

• Safe and Comfort Treatment

- Very stable and high quality 808 nm diode laser can minimize thermal damage and pain during treatment.

• Excellent Cooling System (up to 1°C)

- With Crystal Tip, this Excellent cooling System keeps the patient from pain and has the patient feel comfort and endure the treatment easily.

• Satisfactory Performance

- Optional 600watt Module (100Wx6) makes good results by strong, stable energy up to 100J/cm².
- Wide range of pulse duration of 5~800ms available.

Technical Specifications

Laser source			
Laser Type			Diode Laser
Wave length			808nm
Laser power			1~100J/cm ²
Function			
Operating Mode		1. Arm 3. Breast 5. Groin	2. Beard 4. Armpit 6. Leg
Shot speed		1~15Hz	
Pulse width		5~800ms	
Beam shape		Square	
Beam size		11×10mm	
Light conduction		Crystal coupling	
Cooling Tip Temperature		1°C	
Electrical Requirements		230V, single phase, 50/60Hz	
Dimensions		360×610×1000mm	
Weight		70kg	
Display		Touch screen color LCD	
Cooling System		water cooling
